

# Behind every successful child is a well qualified teacher.

At Oberoi International School, we have dedicated IB professionals with the training and skills to ensure the fullest growth of our students' minds. With an emphasis on deep understanding of concepts rather than learning by rote, we help your children achieve their potential. We also offer our students a number of facilities and give full emphasis on extracurricular activities. Our low student to teacher ratio ensures every student gets personalized attention; thus ensuring that your children are 'Future Ready' and can face any situation with confidence.

**Admissions Open  
for 2011-12**
